Pursuant to DA 08-757, the reporting period covered by the instant report only includes one day, March 31, 2008. Nonetheless, this report provides information about voluntary measures taken by the Station prior to the effective date of the applicable rule.

On Monday March 31st, the Sherman, TX-Ada, OK market experienced severe weather which included Tornado Warnings. Due to this situation, KTEN suspended programming to air complete coverage of the weather situation. All equipment normally used to air crawls was put into service to alert the public to the weather emergency. As a result of this weather emergency, one(1) crawl scheduled to run 12pm -6pm as well as one(1) psa scheduled to air 6pm-12am was missed. Both the crawl and psa were made good the next day in the appropriate daypart.

During this calendar quarter, KTEN aired a total of 142 additional DTV informational public service announcements. During the period of January 1, 2008 to March 31, 2008, KTEN's multicast digital channel 26.2 (Texoma CW) aired an additional 223 DTV public service announcements.

A link to the DTVanswers.com website was prominently displayed on KTEN's multicast channel 26.2 website (www.texomacw.com)

Special note: As a result of it's efforts to educate the public of the digital conversion, on March 28th, KTEN was named as a recipient of Television Week Magazine's Digital Transition Award.
